## PROJECTS

### **Investopedia** — <https://investopedia.com>

Responsible for development of specific features relating to identifying and fixing bugs, sponsorships and ad placements. Implemented new client side features for improved user experience.

### **The Balance** — <https://thebalance.com>

Identifying and fixing bugs. Raised user engagement by improving navigation between pages and page load time. Improved accessibility for the visually impaired through better layout. Presented in investor meetings as new features are introduced.

### **Masked Singer: Mask Yourself App**

Built the fronted desktop and mobile browser experience for the soft launch of the Mask Yourself App. Collaborated with other developers and managers both in house and from FOX Media.

## EXPERIENCE

### **Front End developer, Dotdash**

2020

Closely collaborated with designers, QA, and product managers in a dedicated scrum and agile teams. Partnered with other developers to build component based responsive web development that expand and improve Dotdash properties used by millions each month.

### **Front End developer Intern, Appetizer Mobile**

2020

Participate in design and code reviews. Work closely with marketing and design teams. Updated the entire employee portal front end using React, node.js and AWS. Create stunning web experiences that inspire investors using Wordpress. Designed and created digital marketing and branding materials. Added accessibility.

## SKILLS

**Languages:** JavaScript, Ruby, PHP, Java, HTML, CSS3

**Frontend:** React, React Native, Redux, WordPress, Shopify, Rails, SCSS/SASS

**Backend:** NodeJS, Express, SQL, MongoDB, PostgreSQL

**Other:** Sketch, Photoshop, Illustrator, Excel, Git, Gulp, SEO, Grunt, Bash/Shell, Jasmine, Mocha, Nightwatch, Selenium, AWS.

## **Full stack developer Intern, Semnexus**

2019

Work collaboratively as an intern with team members to provide rapid and robust web development solutions. Developed dynamic and interactive websites using Wordpress, search engine optimization and accessibility.

## **EDUCATION**

**42 University Silicon Valley** — *Software Engineering*

**New Jersey City University** — *Media Arts*
